## **Eagle Technology AS:**

### **Best Sustainable Technology Value Creation Europe 2020**

The CFI.co judges have conferred **Eagle Technology AS** the 2020 award for **Best Sustainable Technology Value Creation Europe 2020**

Highlights of the judging panel's findings include:

- Eagle Technology forms part of a group legacy stretching back 94 years. Eagle Technology joined the group in 2015, establishing headquarters, sales and project management in Norway and engineering and manufacturing facilities in Bosnia, where they stepped up the business with a brand new high-end factory in 2019.
- Water treatment, vacuum pumps, biotechnology and liquid separation systems for the process and food industry and refrigeration systems are some of its specialties, along with manufacturing of induction thermal desorption units, designed for the processing of oil-contaminated drilling waste.
- It prioritises environmental conservation and develops products that convert waste into a resource.

The judging panel's full report:

#### *Eagle Technology AS: Best Sustainable Technology Value Creation Europe 2020*

Eagle Technology forms part of a group legacy stretching back 94 years. The Eagle group fosters a corporate culture that urges employees to be curious and courageous enough to challenge established patterns. It calls for innovation, customer-centricity and responsibility. Eagle Technology joined the group in 2015, establishing headquarters, sales and project management in Norway and engineering and manufacturing facilities in Bosnia, where they stepped up the business with a brand new high-end factory in 2019. Eagle Technology sources the brightest and most inspired engineers to develop next-generation solutions promoting the circular economy and client satisfaction. Water treatment, vacuum pumps, biotechnology and liquid separation systems for the process and food industry and refrigeration systems are some of its specialties, along with manufacturing of induction thermal desorption units, designed for the processing of oil-contaminated drilling waste. Engineering and production are of the highest quality. Pricing is globally competitive, with ownership or licensing

schemes for intercompany or external partners. Eagle Technology seeks to create long-term value and cultivates mutually beneficial relationships with employees, corporate partners, customers, communities, suppliers and shareholders. It prioritises environmental conservation and develops products that convert waste into a resource. Clients trust Eagle Technology with the design, documentation and production of solutions for offshore, marine and land-based industries. Eagle AS and its seven subsidiaries uphold and advance the principles of the UN Global Compact. The group invests in companies with clean energy and environmentally friendly solutions and has an annual turnover in 2018 of about €50m. The CFI.co judging panel presents Eagle Technology AS with the 2020 award for Best Sustainable Technology Value Creation (Europe).

### **About Eagle Technology**

Eagle Technology builds complete units and systems that are delivered to end users worldwide. Eagle Technology is a company in the Eagle Group, established on the knowledge and experience since 1982 when Teknotherm AS was established in Halden. Eagle AS is the founder of Teknotherm AS and several other industry companies both in Norway and globally. Eagle Technology was established in 2014 as Teknotherm Engineering. In 2015 the company changes its name to Eagle Technology. Eagle Technology now consist of three companies, Eagle Technology Norway, Eagle Technology Bosnia, and Due Miljoe AS in Norway, and has about 50 employees.

### **About CFI.co**

CFI.co is a print journal and online resource reporting on business, economics, and finance. The journal recognises that the traditional distinction between emerging and developed markets is now far less meaningful as world economies converge. Headquartered in London, the world's most multicultural city, CFI.co covers and analyses the drivers behind that change. Combining the views of leading multilateral and national organisations with thought leadership from some of the world's top minds – CFI.co's dedicated editorial team ensures that readers better understand the forces influencing and reshaping the global economy.

### **About the CFI.co Awards Programme**

Each year, CFI.co seeks out individuals and organisations that contribute significantly to the convergence of economies and truly add value for all stakeholders. Reporting from frontlines of economies on the move, CFI.co realises that best practice is to be found throughout the world. The Awards Programme aims to identify and reward excellence wherever it is found. The programme aims to inspire others to further improve their own performance.
